HOW MANY TIMES HAS YOUR TEAM PARTICIPATED IN THE EVENT?

The Siam Technology Motor Sport Team is going to compete at this prestigious Bridgestone World Solar Challenge for the fourth time.

WHAT IS THE DESIGN PHILOSOPHY BEHIND YOUR SOLAR CAR?

For this year, our solar car is designed under the concept of "Thainamic", a combination of the two words, Thai and Dynamic. The word 'Thai' is represented by the colors of the Thai national flag. The meaning of the word 'Dynamic' is conveyed with the betta fish. This is because the betta fish's movements are swift, flair and graceful like the wind, reflecting the principle of kinematics.

WHAT IS UNIQUE ABOUT YOUR SOLAR CAR?

Our solar car is a sporty 4-seater, using the movements of the betta tail to design a graphic pattern on the car body and using the Thai flag's colors along with the gold color to represent the prosperous Thai culture.

WHY DOES YOUR TEAM VALUE PARTICIPATING IN THE BRIDGESTONE WORLD SOLAR CHALLENGE?

The Bridgestone World Solar Challenge is the world's largest solar car race, bringing together most advanced technology, innovation and experts from around the world to compete at this event. The foremost challenge is to drive a solar vehicle powered by clean energy in the journey of 3,022 kilometers across Australia.

WHAT IS THE ONE THING YOUR TEAM IS LOOKING FORWARD TO WHEN YOU VISIT AUSTRALIA?

One thing the team has been awaiting in going to Australia is to meet with people of different cultures and to experience the perfect amazing nature of the continent.
